

Higher Education Program News February 5, 2016

Higher Education Updates

Message from Wendy Walsh, Higher Education Program Manager

This week has been busy for the Higher Education Team. We have been working on streamlining our College List process, planning for the Higher Education Symposium, and formalizing our data collection process so we can demonstrate success as well as identify areas that need more attention. During this process our team has identified eight target goals to achieve for 2016, and I would like to share them with you.

1. Ensuring that all the Higher Education Program free courses are reviewed and prioritized for update
2. Leveraging our community of qualified higher education academics to participate in these course reviews and updates
3. Ensuring focus group topics are generated from across the FEMA family and higher education community and the resulting focus group products are easy to access and widely consulted
4. Supporting FEMA Regions in connecting and engaging the higher education programs within their Region
5. Encouraging and supporting the development of special interest group forums at the 2017 Symposium to draw together individuals with common interests in teaching, research, and areas of study, such as service learning, international programs, evaluation or survey research
6. Automating the College List Database
7. Reorganizing our website to ensure materials are current and easy to find
8. Identifying opportunities to leverage the higher education community to serve as a think-tank resource to FEMA

We are energized to take on the year and make the most of it! PLEASE remember that the submissions for symposium breakout session are due February 15, 2016. You just have one more week! We are grateful for the early submitters and can already tell this will be an outstanding event!

Higher Education Program Presents Webinar Series- Session VI - February 24, 2016- 1:30 – 2:30 p.m. EST “Understanding the Basic Relationship between Public Information Officers and Journalists”

The webinar will provide college-level emergency management and homeland security educators with a basic understanding of the relationship between public information officers and journalists.

EMERGENCY MANAGEMENT INSTITUTE

NATIONAL EMERGENCY TRAINING CENTER • EMMITSBURG, MD 21727

FEMA
